BOWLING SEASON BEGINS MONDAY

Y. M. C. A. Commercial League Organized—Others Planned.

The second season of the Y. M. C. A. Commercial League is to start Monday, October 2. Several meetings of the representatives of the various teams were held at the Association building last week and the organization perfected. Every member of last year's organization was on the job and signed up for a berth this season. This means that with last year's experience as a start a good season of clean sport and good fellowship is assured.

The alleys have now been completely overhauled and the last finishing touches put on them. The league opens Monday night with Monongah Glass bowling Hartley's, last year's champions, on the best set of maple alleys in the state. The league rolls on Monday, Wednesday and Friday nights at 7:30 o'clock. Those interested in forming other organizations will be given an opportunity next week—good prospects are the professional men and church teams.

Following is the schedule for the first season:

Evening Chat

Something new in the way of whistles was sprung on Fairmonters yesterday when Buffalo Bill and his show visited the town. The whistles were sold by the "Grip Men" who accompanied the show and worked the streets and the show ground during the day. "Grip Men" are those self-confident chaps who sell toy balloons, badges, horns, pennants, and all manner of small novelties which they can carry in a hand satchel usually slung from a strap about the shoulder and left open near the hand of the salesman. This satchel is the "Grip" and the man who works this game is thus a "Grip Man."

Whistles because of their loud and piercing tone which helps to attract a crowd, is one of the favorite articles sold on this manner. Each year there are dozens of new kinds of whistles originated.

Yesterday for almost two hours one man held a crowd of perhaps two hundred persons on Main street with his rendition of the latest melodies of the year, on a new and mysterious kind of whistle. The note of the instrument was clear and sharp and of an undecipherable piercing sweetness. Perhaps the pipe of the "Pied Piper" made a similar tone. At least it had no more power over the children of Hamelin than did the grip man's notes over the children of Fairmont. In the short time before the parade came down street, this man sold his entire grip full of whistles. Grown up boys and girls bought them as well as the school children.

Today the grip man has gone to another town but the whistles are still here. No one has yet been found who has learned to even blow them. One or two persistent small boys who sat up all night trying can now make a few discordant sounds, but none can as yet approach the plaintive melodies that the grip man played.

SUFFRAGE DAYS NAMED BY WOMEN

Will Take Account of the Progress of the Cause in This County.

(By Associated Press) NEW YORK, Sept. 30.—The National American Woman Suffrage association has designated October 7 and October 21 as Federal Amendment days, and on those days, suffragists all over the country will mark the progress and status of the Susan B. Anthony amendment with fitting public demonstration.

On October 7 public meetings will be held by the suffragists of the local organizations over the country at which will be given the first reports of the canvases of Congressional candidates. The candidates' views on suffrage will be read. Suffrage speeches will be made, and the voters will be urged to select a candidate from among those who favor equal suffrage and the Federal amendment. The suffragists will continue to maintain their strictly non-partisan attitude and will endorse no party candidate but will make it clear that they do not favor those who are unwilling to vote for the submission of the Federal amendment. The anti and non-committal candidates will have another chance and on October 21, a second series of meetings will be held and all candidates who have changed their attitude will be advertised accordingly. On this day, also, a suffrage tableau will be staged, symbolizing the political status of womanhood in the various states of the United States. The first of these tableaux was given in Central park, New York city, last week. Photographs of the tableaux will be made and sent to the presidents of the state organizations, who will model their demonstration after the original one as planned by the National association.
